## Detailed Test Results

**Evenness Performance:** This model had excellent performance in our evenness tests of preheat, high and low temperatures, which measures heating evenness over the grill's surface using thermocouples.

**Preheat performance:** This model had excellent performance in our preheat performance test, which measures the temperature over the grill's surface after 10 minutes using thermocouples. It also gives an indication how quickly the grill reaches its maximum temperature.

**Indirect Cooking:** This model had very good performance in our indirect-cooking test, which gauges how well grills slow-cook foods when only some of the burners are on and the food isn't placed directly over the flame.

**Temperature range:** This model had very good performance in our temperature-range test, which measures the difference between the average temperatures with all burners on high and all burners on low using thermocouples. It also gives an indication on how low the grill can go.

Convenience: This model was judged good for construction materials, useful accessory burners, and other ease of use aspects.

## About

The Kenmore 6256595 [PG-4030800LS] (KMart) is part of the Gas grill test program at Consumer Reports. In our lab tests, Gas grill models like the 6256595 [PG-4030800LS] (KMart) are rated on multiple criteria, such as those listed below.

**Evenness performance:** Evenness of heating over the grill's surface at the highest and lowest setting using all main burners plus the evenness after a 10 minute preheat, using thermocouples.

**Preheat performance:** Evaluates the temperature after a 10 minute preheat using thermocouples. It also gives an indication how quickly the grill reaches its maximum temperature.

**Temperature range:** Reflects how wide a temperature span the grill offers by comparing temperatures at the high setting and low setting using all the main burners.
